Subject: Bruce Power Licence Renewal - Opportunity to Participate in CNSC Intervention Process

Hello, Dan. I hope you and your colleagues are well,

As you likely know, Bruce Power has applied to the Canadian Nuclear Safety Commission for a 10-year operating licence renewal – the first time we’ve requested a licence extension longer than five years. A 10-year licence will allow us to proceed with our Life-Extension Program, which will see \$13 billion invested into the site, allowing it to operate through to 2064.

As in the past, we are hoping that key regional stakeholders such as the Municipality of South Huron would be willing to submit a two- to three-page letter to the CNSC prior to March 7 with any necessary attachments of publications or work done with Bruce Power.

In terms of the submissions we are looking for:

- What your organization does and how you work with Bruce Power
- A clear statement you support our 10-year Licence Renewal application and why
- Reference to our extensive community engagement in the process that has built public confidence
- Reference the robustness of the CNSC process
- Potential topics to discuss in the letter are Bruce Power’s efforts to spread the benefits of our upcoming MCR program across the local region, work collaboratively on local economic development initiatives, provide high-quality jobs to members of the local workforce, provide timely information to local populations, our Community Investment and Sponsorship Program, as well as other employee initiatives, such as donations to community events and golf tournaments, etc.
- Any work you do with local Indigenous communities that we may have assisted with.

Again we will support you with the materials as required, so please just let me know how I can help.

Here are some helpful links to consider:

Bruce Power’s Licence Renewal Publication:

How to submit an intervention:

<http://www.nuclearsafety.gc.ca/eng/the-commission/intervention/>

Please let me know if you are able to assist with a letter and presentation, and how I can help.

Take care and thanks very much,
Chris
