  hello,

  I am writing concerning the south huron stance on exotic animals, with regards to the lions recently located to our municipality. What are the rules regarding housing of large exotic animals? I am sure that south huron is well aware of the problems associated with housing such a large breed. I'd like to encourage our municipality to enact an exotic ban for this area. These lions have to have a home, with trained and reaponsible individuals, and proper vetrinary care. The man selling these animals, Mr drysdale, has cost the municipality of lambton money and resources and an abundance of time and anxiety. My fear is that it will cost the tax base of south huron greatly if these animals are not properly housed or cared for! Please say NO to the lions. This issue ripped apart the community of grand bend, which-especially during these times-require strong leadership and community to move forward. They were extremely difficult to remove once they were already settled into a residential neighbourhood. Daily noise complaints, animals escaping frequently, and safety were of great concern. Please avoid this disaster before it happens!!!

  Thank you for your time.
