

May 13, 2022

To: Municipality of South Huron Council

The Exeter BIA Board of Directors would like to request additional support to ensure parking in our heritage core is optimized to meet the needs of all who access our businesses.

In this endeavour we request support with identifying and educating individuals that park on our main street section beyond the 2 hour timeframe allowed. While our goal is not to have individuals ticketed we would like to ensure we can accommodate as many visitors/shoppers as is possible.

As the parking by-law is upheld and enforced by the Municipal staff or a by-law office contracted by the Municipality we bring this concern before you.

Thank you for your ongoing support to our business community and ensuring the most advantageous climate of commerce is possible within South Huron and Exeter.

On behalf of the Exeter BIA Board of Directors,

*Laura Connolly*
