Subject: NO to Tridon group

HOWDY

We try to conserve and use as less water as we can. We do not have a dishwasher because it uses to much water and electricity and is noisy, we have a rain barrel to collect water for our outdoor and we use distilled water for drinking . We only use the service water for dish cleaning and for bathroom uses.

Our water charges monthly are approximately a disturbing a \$100 a month and next years increase will be an astounding 25%. we are also paying for the E-GBSTF&PS2 Debt charge is \$56.72 every quarter.

Now my understanding is that the tridon group wants south huron residents to help them with the connection charges at the property they bought at Oakwood golf course at an expense of around \$600,000.

As a south huron resident I would vote against this because the charges now are getting out of control,
WHEN WILL COMMONSENSE PREVAIL.

Thank you

Marc & Wendy Boughner , 85 dunes dr, grand cove estates
